Delineation of Privileges

Name:

### CATEGORY I - PRIVILEGES

**Category I Core Privileges include:**

- Allied Health Professionals (PA and ARNP) seeking Category I Sedation Privileges must meet Bylaws requirements for professional certification and must provide documentation of training and/or experience as evidenced by the following methods: *(Check all that apply)*
  - Provide evidence of moderate sedation/analgesia training during training, or at least 10 cases performed within the last 12 months; OR
  - Have current certification in ACLS or PALS

**UNDER INDIRECT PHYSICIAN SUPERVISION ONLY:** Supervising Physician must be in the Hospital and immediately available.

1. Order diagnostic and therapeutic services; write orders and progress notes; request and provide consultations; render any care in a life threatening emergency
2. **Minimal Sedation** (A drug-induced state during which patient responds normally to verbal commands. Although cognitive function and coordination may be impaired, ventilatory and cardiovascular functions are unaffected. This includes patients who receive low doses of sedatives/opioids for the purpose of pain or anxiety control.)
3. **Moderate Sedation** (Conscious sedation is a drug-induced state during which patients respond normally to verbal commands. No interventions are required to maintain a patent airway and spontaneous ventilation is adequate. Cardiovascular functions usually maintained.)

### CATEGORY II - PRIVILEGES

**Category II Core Privileges include:**

- Allied Health Professionals (PA and ARNP) Physicians seeking Category II Sedation Privileges must meet Bylaws requirements for professional certification and must provide documentation of training and/or experience as evidenced by the following methods:
  - Provide evidence of deep sedation/analgesia training and advanced airway management training during training AND/OR
  - Have current certification in ACLS or PALS and have current professional certification

**UNDER INDIRECT PHYSICIAN SUPERVISION ONLY:** Supervising Physician must be in the Hospital and immediately available.

1. Order diagnostic and therapeutic services; write orders and progress notes; request and provide consultations; render any care in a life threatening emergency.
2. **Deep Sedation/Analgesia** (A drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway and ventilation may be inadequate. Cardiovascular function is usually maintained.)

Name:

Practitioners requesting Moderate and/or Deep Sedation/Analgesia privileges shall possess the ability to rescue patients from deep sedation, to manage a compromised airway, and to provide adequate oxygenation and ventilation. Each applicant must follow ASA guidelines for scoring and administering sedation/analgesia.

I hereby certify that I possess the training, skill, experience, and current competency for the clinical privileges I have requested and pledge to practice within the limitations and scope of these privileges.

I also certify that I have met the requirements as outlined above and agree to comply with the current Hospital Policy and Procedure for Sedation/Analgesia.
